NC Dovetail Routing and Drilling Machine PP-2-FR-NC

Numerically controlled 2-axis-routing and drilling machine

Routing and drilling machine based on the latest developments from Hoffmann. Fast – flexible – for any frame solutions (0-67°) in the field of window and door fabrication, post and beam construction and general furniture production.

Technical data

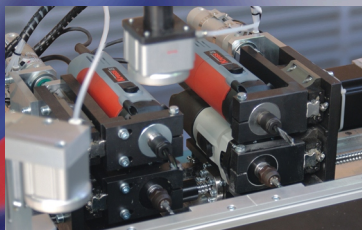

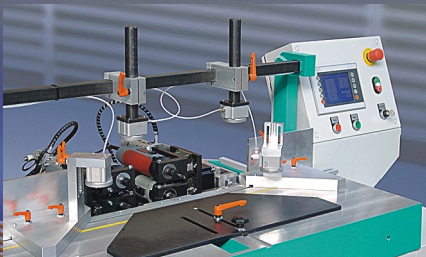

Power supply	3ph/N/230/400 V 50/60 Hz 4 kW
Routing/drilling motors	4 x 1.0 kW
Spindle drives	5.6 Nm
Display	Powerpanel/5.7"/Touch-color-display/USB-port for data transfer/intuitive operator guide
Tooling routing/drilling	Steel collets
Work-piece capacity / cross section	X-axis 0 - 210 mm / Z-axis 0 - 140 mm
Drilling depth	0 - 50 mm
Router tooling type	Hoffmann W1 / W-2 / W-3
Compressed air	6 bar
Dimensions appr. (WDH)	1200/1300/1500 mm

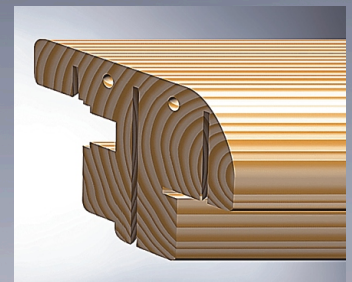

Function

Any keyway or dowel position is possible. Horizontal, vertical or in both configurations. All data and parameters are entered through the multicolor touch-panel. Drilling and routing positions can be stored / called alphanumerically under any profile name.

- > Input of keyway and dowel position through operator guided menus
- > Processing of 2 work-pieces per machine cycle (simultaneously)
- > More than 100 program spaces
- > Multi-lingual menu structure
- > Free positioning over the entire cross section, for example 2 x dowel holes / 3 x keyway

Power panel
